

Edison Band Families and Friends

The Edison High School Band would like to offer a way for our families to support our program in a fun and exciting way, through the use of the first ever Live Interactive Sports App created by Mark Mongie, former lead designer of blockbuster games such as Madden NFL and Fifa Soccer. This LIVE interactive sports game will allow you to play along with your favorite team in real time as you watch the sporting events at the stadium or on TV. The game is totally **FREE to Download** — and **FREE to Play**. This is a game where everyone wins. The more you play; you'll be able to earn rewards like team gear, gift cards, autographed merchandise and even tickets to games.

As a bonus, every time you play this app you'll be helping the Edison High School Band raise money to help purchase new equipment, and help fund the overall program.

All you have to do to help is click on the link below, pre-register for the game, and then have fun playing this free game with your friends and family once it comes out.
