Dear Participants and Friends,

Welcome back to the annual Festival of Marching at Edison High School. We are proud of our six-time State Champions and USBAA National Champions. We look forward to another year of "taking the field in competition". Thanks go out to America's best Band Parents, Mr. DeNicuolo, Mr. Ciappina, all the other staff and most of all to our new and returning Marching Eagles. I am amazed at the size of this show and can't wait ever imagine all the work that went into making this event possible.

Welcome our new Supervisor of the Arts Mr. Roger Vroom. He is a true "Band Man", and we look forward to his support maintaining the highest quality Arts program that Edison is famous for. Thanks to our Board of Education and Central office for their continued support.

Good luck to all the Varsity Band members. Have a successful season and enjoy the fellowship of your band mates. You are leaders in your schools.

To our Eagles, keep being so much of "What's Great About Edison High!". I can't wait to see your success.

Sincerely,
Charles K. Ross
Principal

To Our Seniors,

We've had hard times and great times together over these past few years, and we're very proud to know how much you've all grown to be better musicians and young adults.

Your hard work, dedication, and leadership have brought this band to new and higher levels.

We will cherish the memories that we have shared with the Class of 2020. You all will be missed in the years to come, and your quirks and personalities will forever stay with us. Thank you for being the best you could be and for continuing to give us your time and dedication.

Good luck in the future, as we know you will all make us proud.

September, 2019

Students, Families and Educators:

Welcome to the 2019 Edison High School Marching Band Competition! Today is a celebration of the hard work and dedication that go into a successful season. Countless hours were spent on and off the field in an effort to create and hone the amazing performance you will experience today. The parents and volunteers of the music boosters also deserve recognition for their efforts in creating a terrific event to showcase the talents of all our students. Events, like the one today, reflect the commitment to educational excellence that we enjoy in Edison.

As you enjoy the competition today, I invite you to applaud, cheer and encourage each band as they take the field! It is important to remember that not all accomplishments come with a trophy. As a director, the first question I asked my students as they left the field was "How was that?" Each individual student is capable of measuring their success or failure; we must remind them that they are in charge of making the positive changes that ensure their response of a huge smile and feeling of accomplishment. Thank you for your continued support of the music program and good luck on a great 2019 Marching Band season!

Yours in music,

Roger A. Vroom III

USBANDS
PRESENTED BY THE CADETS

Guide to USBands Adjudication

USBands supports and manages nearly 150 scholastic marching band events each fall, and utilizes a customized adjudication system to deliver on our philosophies as an organization, providing the best possible experiences for the student performers in each and every ensemble.

But people often wonder…How Do The Numbers Work?

CLASSIFICATION

USBands competitive groupings are based first on the size of the ensemble (Group I-VI); this number is derived from the total number of performers in the ensemble. Then, the ensemble is placed into one of three competitive categories, based on the competitive development/preferences of the ensemble (Festival, A, Open).

- Festival bands are non-competitive and receive ratings in lieu of scores/rankings.
- A Class bands are expected to perform basic-to-intermediate skills, and have 75% of their score from each adjudicator dedicated to performance, with just 25% dedicated to design/composition.
- Open Class bands are generally more developed, and their scores are derived from a 50% split between performance and design/composition.

ADJUDICATION

USBands utilizes four (4) separate captions in order to calculate the total score for a particular ensemble. Each adjudicator ranks and rates the ensembles in his/her specific caption, and is blind to the scores/numbers of the other individuals on the panel until all scores have been verified and certified by the USBands tabulator.

- Music Individual accounts for 20% of the total score. This person is on the field, focused on the musical performance quality of each individual from an "up-close" perspective.
- Music Ensemble accounts for 20% of the total score. This person is in the press box, and is focused on the musical "big picture."
- Visual Performance accounts for 30% of the total score. This person is in the press box, and is focused on the visual performance quality of the ensemble.
- Overall Effect accounts for 30% of the total score. This person is in the press box, and looks at the overall presentation of the program, including evaluation of programmatic pacing, conceptual development, coordination of elements, as well as engagement and entertainment value.
- Color Guard adjudicators are present at some USBands events, and are intended for caption awards only. This adjudicator is in the press box, and is focused strictly on the performance of the Color Guard section.
- Percussion adjudicators are present at some USBands events, and are intended for caption awards only. This adjudicator is in the press box, and is focused strictly on the performance of the Percussion section.
